13. **Decals.** Competitors are reminded that HSCC decals (one each side of the car) and, if supplied, race sponsor's decals must be prominently displayed on competing vehicles. Failure to display decals may result in exclusion.
14. **Pits:** Cars entering the pits during practice or racing must use the pit entry road. Failure to observe pit marshals' lawful instructions may lead to exclusion from the meeting.

15. **Practice:** There will be a minimum of one practice session for each category of race. Drivers must complete 3 laps to qualify for a place on the grid. Drivers who are allowed to qualify out of session will start from the back of the grid. The fastest time set by each car will determine grid position (MSA rule Q 4.5.3 may be enforced). The maximum number of starters for each race are as shown in the MSA Year Book, Section Motor Sport Venues, for the circuit configuration used. For qualifying the maximum number of cars on the circuit can increase up to a maximum of 20% to allow notified reserves to qualify. **Reserves:** Subject to qualification, reserves will be admitted to the races if spaces are available in the order published in the entry list.
16. **Starting Grids:** Competitors are reminded of the provisions of Q4.6. 'Each car will be allocated its predetermined position on the starting grid and **it will be the responsibility of the driver to place their car in the correct position**'. It is strongly recommended that competitors visit the grid, prior to their race, to acquaint themselves with the markings and other features of the grid as starting in the incorrect position may result in a time or drive through penalty.
17. **Race Starting Procedure.** All HSCC races will be either standing start or rolling start. The type of start for each meeting will be declared in the Final Instructions. The HSCC quick start procedure will be used. Drivers in all races should proceed to the assembly area 15 minutes before the scheduled start of their race or when called. Pre gridding and the 1 minute and 30 second countdown will take place in the assembly area and **for a standing start** drivers will be released on to the circuit, do one complete lap and then proceed to the starting grid, this will constitute the 'green flag' lap. Upon arrival at the starting grid, drivers should take up their grid positions as quickly as possible and, as soon as the last car is in position, only the 5 second board will be displayed before the red lights are shown, followed between 3 and 5 seconds later by the red lights being extinguished denoting the start of the race. **For a Rolling Start procedure** cars will be pre gridded, they will then have one complete lap as their formation lap and form up on the starting grid. When the last car is in position, there will be a 5 second board shown followed by a green flag. The cars will then be led round for another lap behind a pace car and will form up into their 2 x 2 grid positions. The pace car will then turn into the pit lane and **cars must then hold their position and speed**. As the front row of the grid approaches the start line, the red lights will be extinguished, denoting the start of the race but there is **no overtaking or changing of direction for any cars prior to crossing the start line**. Should the red lights remain on, the start is aborted and cars should complete the lap and return to the starting grid. **PRACTICE STARTS/WEAVING:** Drivers indulging in practice starts or excessive weaving during the warm up/green flag laps will render themselves liable to exclusion as both actions are expressly forbidden. Should any race be 'red flagged', notwithstanding the provisions of Q5.4, it may be restarted, at the discretion of the Clerk of the Course and if time permits, for the remaining scheduled distance. Only cars running at competitive racing speed, when the red flag is displayed, will be allowed to take part in the restarted race and 'parc ferme' conditions will apply between the red flag being shown and the start of the restarted race. The grid for the restarted race will be the order in which the cars passed the finish line at the end of the lap preceding the lap on which the red flag was shown and the result of the race will be the order in which the cars cross the finish line when the chequered flag is shown at the conclusion of the restarted race. If there is any variation to the start procedure this will be announced at a drivers briefing. On some occasions pre gridding for some groups may take place in the pit lane, if this is the case it will be notified in the final instructions
18. **Pit garage allocation.** Where appropriate will be notified in the meeting Final Instructions
19. **Pit Wall & Grid Safety.** Entrants must confine team members using pit wall to a maximum of two personnel per competing car and advise all personnel to follow pit marshals' instructions without argument. The pit wall must be clear of all personnel for all race starts. No personnel allowed on grid.

21. **Judges,** who will be deemed to be judges of fact, will be appointed to adjudicate on noise, false/jump starts, finishing order, crossing a penalty line and overtaking under a yellow flag. 24. **Nominated drivers:** Driver nominations may be deferred but under no circumstances may a driver compete without signing the appropriate indemnity declaration. MSA regulation D 13.1
25. **The Organisers** reserve the right to postpone, abandon or cancel the meeting or any part thereof. In the event of postponement, abandonment or cancellation, the Organisers and promoters will not be liable for any loss or expense incurred by entrants or drivers.
26. **Race results:** will be based on finishing order determined by the Chief Timekeeper and/or judges of fact. Competitors are reminded of MSA Regulation Q12.2.1 'At all times throughout the event competing vehicles shall be fitted with a working Timing identification module (i.e. Transponder).'
27. **Results:** Provisional results will be available from Race Administration as soon as practical after each practice or race. Protests must be made in accordance with MSA regulations C5.1 – 5.7
