

DONINGTON PARK PADDOCK REGULATIONS

- Please conform to event terms and conditions.
- No pegging or drilling in to paddock surfaces.
- No drones allowed on site.
- All portable generators must be sited on a drip tray with full tank capacity.
- All power must be paid for unless otherwise stated. Please visit paddock services at the petrol station. Power is charged at £10 per day.
- When refuelling all care must be taken to avoid spillages. If a spillage occurs it must be reported immediately to the Environmental and Paddock Coordinator (EPC) located at the petrol station.
- All care must be taken to remove your waste from site or the organising club will be fined at £5 per item. (This includes tyres and fuel drums)
- All hazardous waste must be removed from site or disposed of in the correct manner on leaving site. If unsure please contact EPC or a member of security.
- Chemical toilet waste must be disposed of in the correct manner. Please use IBC's not the toilet blocks nearby.
- Please use allocated drums for oil waste. There are 3 green bins behind the garages and 1 in the scrutineering bay. Not to be contaminated with any other fluids. i.e brake/clutch/cooking fats/solvents.
- No cooking fats to be discharged into drains.
- Compliance with circuit/paddock noise regulations at all times. No engines to be run before 9am on any day.
- No daisy chaining (splitting) of power. This will result in power being removed without refund.
- Fire lanes must be kept clear at all times. Please be prepared to move should you be asked.
- Donington Park has a zero tolerance policy. Each driver/rider is responsible for team members and family.
