Any car which falls more than 6 car lengths behind the row in front during the Pace Car Lap(s) thus being judged as penalising all following cars at the startline will be subject to a penalty unless it is the result of mechanical problem in which case the driver should raise an arm. A Bulletin for information only will be produced recording the finishing order of all cars in the first part which can form part of the Championship points table where points are allocated for race starts and fastest laps. A grid for the restarted race will be produced in the order in which the cars passed the finish line at the end of the lap preceding the lap on which the red flag was shown and the result of the race will be the order in which the cars cross the finish line when the chequered flag is shown at the conclusion of the restarted race.
