18. **Standing Start Procedure.** Drivers should proceed to the Assembly Area 15 minutes before the scheduled start of their race. Pre-gridding and the 1 minute and 30 second countdown will take place in the Assembly Area and drivers will be released onto the circuit to do one complete lap which will constitute the 'green flag' lap. Upon arrival at the starting grid, drivers should take up their grid positions as quickly as possible and, as soon as the last car is in position, the 5 second board will be displayed before the red lights are shown, followed between 3 and 5 seconds later by the red lights being extinguished to denote the start of the race. Competitors are reminded of the provisions of MSUK Blue Book Q4.6, "Each car will be allocated its predetermined position on the starting grid and it will be the responsibility of the driver to place their car in the correct position".
- Rolling Start Procedure:** Drivers will be pre gridded in the pit lane 15 minutes before the scheduled start of their race. Pre-gridding and the 1 minute and 30 second countdown will take place in the pit lane and drivers will be released onto the circuit to do one complete lap behind the Pace car. The Pace Car will if clear turn off its yellow flashing lights straight approaching the Bus Stop and will then turn into the Pit Lane. Competing cars must then hold their position and speed as the front row of the grid approaches the start line the red lights on the starting gantry will be extinguished denoting the start of the race but there is no overtaking or changing of direction for any cars prior to crossing the start line. Any car which falls more than 6 car lengths behind the row in front during the Pace Car Lap(s) thus being judged as penalising all following cars at the startline will be subject to a penalty unless it is the result of mechanical problem in which case the driver should raise an arm. Only under these circumstances may following cars overtake that car before the start line. Any infringements of the race start procedure may result in a time penalty of up to 60 seconds
19. **Practice Starts/Weaving:** Drivers indulging in practice starts or excessive weaving during the warm up/green flag laps will render themselves liable to exclusion as both actions are expressly forbidden.
20. **Race Stops:** Should any race be 'red flagged', notwithstanding the provisions of Q5.4, it may be restarted at the discretion of the Clerk of the Course and, if time permits, for the remaining scheduled distance. Only cars running at competitive racing speed, when the red flag is displayed, will be allowed to take part in the restarted race and 'Parc Fermé' conditions will apply between the red flag being shown and the start of the restarted race. A Bulletin for information only will be produced recording the finishing order of all cars in the first part which can form part of the Championship points table where points are allocated for race starts and fastest laps. A grid for the restarted race will be produced in the order in which the cars passed the finish line at the end of the lap preceding the lap on which the red flag was shown and the result of the race will be the order in which the cars cross the finish line when the chequered flag is shown at the conclusion of the restarted race. If there is any variation to the start procedure this will be announced at a Drivers Briefing.
