Pre-gridding and the one minute and 30 second countdown will take place in the Assembly Area and drivers will then be released onto the Pit Lane and go into the race start procedure. When instructed by the Clerk of the Course the pace car, with yellow roof lights illuminated, will move off and complete one green flag lap* if starting from the International (Wing Pits). If starting from the National Pits: **Historic Formula Junior and Historic Formula 2 will have one and a half Green Flag laps** for all other races going from the National Pits **they will have a half green flag lap** (n.b. should the weather have changed since qualifying or for other reasons of safety the Clerk of the Course may increase this). The pace car will dictate the speed of the green flag laps. Competing cars should follow at a safe distance from the pace car maintaining their grid positions. The lead cars must have the pace car in full sight for the duration of the green flag laps, should the need arise to delay or abort the start. The pace car will indicate an impending race start by extinguishing its yellow roof lights and entering the pit lane. Competing cars must then hold their position and speed, as set by the pace car, and as the front row of the grid approaches the start line the red lights on the starting gantry will be extinguished denoting the start of the race. There will be no acceleration or increase in speed before the red light is extinguished. There shall be no overtaking or changing of direction prior to crossing the start line. (n.b. should a competitor suffer a mechanical problem they should indicate this to other competitors by raising their arm and safely pulling off the circuit into the pit lane or adjacent to a marshal post).
- It is strictly forbidden for cars to deliberately back up or hold other competitors during the green flag laps in attempt to gain a competitive advantage. It is also strictly forbidden to excessively brake, weave and accelerate in an attempt to warm tyres. • Any car which in the opinion of the Clerks of the Course fails to maintain its position and speed set by the pace car prior to crossing the start line or is guilty of any of the preceding instructions will be penalised as follows;
- In addition to any offences outlined in the MSUK Yearbook any infringements of this race start procedure may result in a time penalty of up to 60 seconds or disqualification from the race.

The grid for the restarted race will be the order in which the cars passed the Finish Line at the end of the lap preceding the lap on which the red flag was shown and the result of the race will be the order in which the cars cross the Finish Line when the chequered flag is shown at the conclusion of the restarted race. Except for Masters Races, if a red flag is used twice in the same race, the restart will be put to the end of the normal timetable and will run if time allows.

For scrutineering on Thursday please see paragraph 2.

We, the HSCC together with Silverstone Circuits Ltd (SCL) and Goose Live Events Ltd, would like all race cars to be on display to the public so please do not clutter the Paddock areas with unnecessary support vehicles. Remove road cars and trailers and help us put on a really good show for spectators. This is very important. Please make sure you park in your race allocated Paddock area only. Do not park elsewhere as we as Organisers need to know where you are.

We hope you have an enjoyable race meeting.
