Entrants must confine team members using Pit Wall to a maximum of two personnel per competing car and advise all personnel to follow Pit marshal's instructions without argument. The Pit Wall must be clear of all personnel for all race starts. No personnel are allowed on grid.
12. **Practice Sessions and Races:** All drivers should go to the Assembly Area 15 minutes before their published session time or when called by marshals or paddock announcement, and then proceed onto the circuit as directed. N.B. Sessions may begin before the published time so please be ready and listen for paddock announcements. After the chequered flag, drivers should slow down and return to the Paddock as directed by the marshals. Derek Bell Trophy and Touring car Legends will be assembled and released from the Pit Lane
13. **Qualification:** For the purposes of MSUK Q12.4. All drivers entered for a race must complete three laps in official practice to qualify. Drivers must practice in the relevant session for every race entered. Drivers wishing to practice out of session must obtain written permission from the Clerk of the Course and will start the relevant race from the back of the grid. The fastest time set by each car will determine grid position.
14. **Reserves:** Subject to qualification, reserves will be admitted to the races in the order published in the entry list if spaces are available.
15. **Grid Formation:** Will be 2x2 for all races.
16. **Race Start Procedure:** All Races unless notified will be a standing start apart from **Derek Bell Trophy, Guards Trophy, and Touring Car Legends**, who will have rolling starts.

Standing Start

All drivers must proceed to the assembly area, 15 minutes before the scheduled start time of their race or when called by marshals or paddock announcement. Pre-gridding and the 1 minute and 30 second countdown will take place in the Assembly Area following which drivers will be released onto the circuit, at the discretion of the Clerk of the Course cars will do one complete lap and then proceed to the Grid. This will constitute the 'green flag lap'. Should there be a change in weather conditions which would necessitate an additional green flag/formation lap the race duration will commence once the last car starts the additional green flag/formation lap.

Please make sure you know which line on the grid to stop at. Upon arrival at the Grid, drivers should take up their positions as quickly as possible and, as soon as the last car is in position, the 5-second board will be displayed before the red lights are shown, followed between 3 and 5 seconds later by the red lights being extinguished denoting the start of the race.

17. **Rolling Start:**

Drivers upon instruction will Pre-Grid and assemble 15 minutes before the scheduled start of their race. Pre-gridding will take place in the Assembly Area and drivers will be released onto the circuit behind a Pace Car for a green flag lap and then into the start procedure. The Pace Car will if clear turn off its yellow flashing lights and then turn into the Pit Lane. Competing cars must then hold their position and speed as the front row of the grid approaches the start line the red lights on the starting gantry will be extinguished denoting the start of the race but there is no overtaking or changing of direction for any cars prior to crossing the start line. Any car which falls more than 6 car lengths behind the row in front during the Pace Car Lap(s) thus being judged as penalising all following cars at the startline will be subject to a penalty unless it is the result of mechanical problem in which case the driver should raise an arm. Only under these circumstances may following cars overtake that car before the start line. Any infringements of the race start procedure may result in a time penalty of up to 60 seconds.

Derek Bell Trophy, Touring Car Legends cars will have the same procedure but will pre-grid in pit lane where the 1 minute and 30 second countdown will take place. The distance from the pit lane to the start line will constitute the Green Flag/Formation lap whether a standing or rolling start.

Where a second green flag lap is introduced the race start will be from the completion of the first green flag lap.

18. Should circumstances at the event change such as but not restricted to Track Conditions or Weather the Clerk of the Course may change Standing Starts to Rolling Starts. When this decision is made all affected competitors will be notified at the earliest opportunity along with being advised of the number of Pace laps. The procedure will be (unless otherwise advised): Cars will be released from the assembly to do one (or more) rolling laps behind the Pace Car, forming into their grid positions towards the end of the lap in preparation for the Pace Car to turn off its lights and pull into the Pit Lane after which drivers should hold their grid positions until the red lights are extinguished at the Startline. There must be no overtaking until your car has crossed the Startline.

Practice Starts/Weaving: Notwithstanding any provision in the MSUK yearbook If in the opinion of the Judges of Fact or the Clerk of the Course drivers indulge in practice starts or excessive weaving during the warm up/green flag laps may receive a 'Drive Through' or Stop & Go' Penalty

19. **Race Stops:**

- Should any race be 'red flagged', it may be restarted, at the discretion of the Clerk of the Course and if time permits, for the remaining scheduled distance.
- The grid for the restarted race will be the order in which the cars passed the finish line at the end of the lap preceding the lap on which the red flag was shown, and the result of the race

will be the order in which the cars cross the finish line when the chequered flag is shown at the conclusion of the restarted race.

- In the interval between stopping and restarting the race cars may return to the pits for repairs. Subject to approval from a scrutineer they may rejoin the race start from the Pit Lane. Equally if approved by the Scrutineer non-running cars at the time of the Red Flag can rejoin the race from the Pit Lane in order behind those previously mentioned. For clarity see section Q12.15 – Q12.16. If there is any variation to the start procedure this will be announced at the drivers briefing. On some occasions pre gridding for some groups may take place in the pit lane, if this is the case it will be notified in the final instructions.
 - The Clerk of the Course may suspend a race under safety car conditions by bringing the race to a stop and stopping the race duration clock. The restart of the race will be under safety the car where the race duration clock will be restarted.
 -
20. **Judicial:** At the discretion of the Judicial officials, Judicial Hearings may be recorded. If a Judicial hearing subject objects, then the Clerk of the Course or Stewards of the meeting may appoint a person to be present and whose sole function in the hearing is to take a contemporaneous note including all questions and replies. The Duration of Stop/Go Penalties will be at the discretion of the Clerk of the Course. Should either a ‘Stop-Go’ or ‘Drive Through’ penalty be imposed and notified during the last five laps, or after the end of the race or, depending on the case for duration races during the last 10 minutes, or cannot be imposed for operational reasons, an alternative time penalty of no less than 30 seconds and no more than one minute shall be added to any penalty period and the elapsed time of the car concerned.

 - b) No change of car is permitted which would prevent the participation in the event of a reserve entry.
 - c) As an additional permit charge will be incurred the following also apply;
 - d) The decision to allow a change is in the absolute discretion of the Secretary of the Meeting and Clerk of the Course. Should a Driver change be permitted, and they

e) A change of driver is restricted to Full Racing Members and only one driver change may be granted per Full Racing Member per annum.

The foremost priority is to ensure safety both on and off of the track.
26. **Disposal of Waste:** Would all competitors please be aware that it is no longer acceptable to leave or abandon empty fuel/oil containers, batteries and tyres behind when leaving a venue. Such items are classified as "hazardous waste" and it costs between £10 and £25 per item for safe disposal. Please also be aware that these items **MUST NOT** be placed in general rubbish skips at circuits; doing so could trigger a £1000 Local Authority Fine. Where it can be identified that a certain competitor or championship is responsible, charges will be passed on. Where it is not possible these charges will have to be absorbed and will then reappear as increased entry fees for all. Your co-operation would be appreciated - take your waste home and dispose of it safely.

29. **Fuel:** Sunoco (Anglo American Oil Company Ltd) will be in attendance and they will be situated in the Paddock by the Fuel Station. If you would like to place a Fuel Order for Sunoco Contact them on 01929 551557. The circuit fuel station will be open on request, by calling at circuit reception and asking for fuel. Any car without a working transponder will during qualifying receive a warning, failure to correct this will result in a time penalty of 30 seconds being added to your time for the race.
