Drivers are required to practice in the designated session for every race they enter. If drivers wish to practice outside of these sessions, they must inform the Clerk of the Course. If permission is granted, they will start the relevant race from the back of the grid.

Reserves: Subject to qualification, reserves will be admitted to the races in the order published in the entry list if spaces are available.

Grid Formation: Will be as per the series regulations or as directed by the Clerk of the Course.

Race Start Procedure: All Races unless notified will be a standing start. With the exception of the **Derek Bell Trophy, 750MC Radical Club Challenge, HGPCA, and Guards Trophy** who will have a rolling start.

All drivers must proceed to the assembly area 15 minutes before the scheduled start time of their race or when called by marshals or paddock announcement. Pre-gridding and the 1 minute and 30 second countdown will take place in the Assembly Area following which drivers will be released onto the circuit, at the discretion of the Clerk of the Course cars will do one complete lap and then proceed to the Grid. This will constitute the 'green flag lap'. Should there be a change in weather conditions which would necessitate an

additional green flag/formation lap the race duration will commence once the last car starts the additional green flag/formation lap.

Please make sure you know which line on the grid to stop at. Upon arrival at the Grid, drivers should take up their positions as quickly as possible and, as soon as the last car is in position, the 5-second board will be displayed before the red lights are shown, followed between 3 and 5 seconds later by the red lights being extinguished denoting the start of the race.

Rolling Start:

Drivers must arrive at the Assembly Area 15 minutes before their race is scheduled to start. Pre-gridding will occur in the Assembly Area, and drivers will be released onto the circuit behind a Pace Car for a green flag lap, followed by the start procedure.

Once the conditions are clear, the Pace Car will turn off its yellow flashing lights and enter the Pit Lane. Competing cars must maintain their position and speed as the front row of the grid approaches the starting line. When the red lights on the starting gantry go out, the race begins. However, there is to be no overtaking or changes in direction for any cars before they cross the starting line **with the exception of 750MC Radical Club Challenge** where they will not be required to wait until crossing the control line.

If a car falls more than six car lengths behind the row in front during the Pace Car Lap(s), it may be considered as penalising all cars behind it at the starting line. Drivers may face a penalty unless the situation is due to a mechanical issue; in that case, the driver should raise an arm. Only under these circumstances may following cars overtake that car before the starting line.

Any violations of the race start procedure may result in a time penalty of up to 60 seconds.

Should circumstances at the event change such as but not restricted to Track Conditions or Weather the Clerk of the Course may change Standing Starts to Rolling Starts. When this decision is made all affected competitors will be notified at the earliest opportunity along with being advised of the number of Pace laps. The procedure will be (unless otherwise advised): Cars will be released from the assembly to do one (or more) rolling laps behind the Pace Car, forming into their grid positions towards the end of the lap in preparation for the Pace Car to turn off its lights and pull into the Pit Lane after which drivers should hold their grid positions until the red lights are extinguished at the Startline. There must be no overtaking until your car has crossed the Startline.

Practice Starts/Weaving: Notwithstanding any provision in the National Competition Rules If in the opinion of the Judges of Fact or the Clerk of the Course drivers who indulge in practice starts or excessive weaving during the warm up/green flag laps will render themselves liable to a penalty.

Suspension of Race. The Clerk of the Course may suspend a race under safety car conditions by bringing the race to a stop and stopping the race duration clock. The restart of the race will be under safety the car where the race duration clock will be restarted.

Race Stops: Should any race be 'red flagged', notwithstanding the provisions of NCR 12.9.9.1-9.3, it may be restarted at the discretion of the Clerk of the Course and if time permits, for the remaining scheduled distance. Only cars running at competitive racing speed when the red flag is displayed, will be allowed to take part in the restarted race and 'Parc Fermé' conditions will apply between the red flag being shown and the start of the restarted race. The grid for the restarted race will be the order in which the cars passed the Finish Line at the end of the lap preceding the lap on which the red flag was shown and the

result of the race will be the order in which the cars cross the Finish Line when the chequered flag is shown at the conclusion of the restarted race. If a red flag is used twice in the same race, the restart will be put to the end of the normal timetable and will run if time allows.

Judicial: At the discretion of the Judicial officials, Judicial Hearings may be recorded. If a Judicial hearing subject objects, then the Clerk of the Course or Stewards of the meeting may appoint a person to be present and whose sole function in the hearing is to take a contemporaneous note including all questions and replies. Competitors or Entrants are not allowed to record the proceedings.
